Dear Hugh Edwards:

Just a note to say that I found your personal tale of becoming involved with photography most interesting - there were so many cross-links - One being my acquaintance with Carl Schmeidler, whose great love of art and friendly warmth I vividly remember - His architect brother, Claude lives near me on High Point Rd.

I wish you would go on and amplify further in other articles, for you bring a new context that is very valuable to understand.

Best wishes,

Barbara Morgan
